Title: Need to continue the services of south bound trains from Egmore Railway Station, in Tamil Nadu.

SHRI N.S.V. CHITTHAN (DINDIGUL): Chennai is the fourth largest city of India. Chennai Central Railway Station was started in the year 1873 and the Egmore Railway station was established in 1906. Now, steps are being taken to create a third terminal at Tambaram Railway Station. More than 16 Express trains have now started from Egmore Railway Station to entire south Tamil Nadu. Egmore station is located at the centre of the city and it is very convenient for passengers. While creating a third terminal at Tambaram, it is feared that all the south bound trains will be operated form Tambaram which is 30 Kilometers away from Egmore Railway Station. Passengers have to reach Tambaram amidst much traffic congestion, loss of time and money. So, the present arrangement of operating south going and coming trains from Egmore Railway station should be continued.
